

# 12-Month Content Calendar

## HVAC & Plumbing Contractors

Every topic mapped by trade, season, and search intent. Your cluster-building roadmap — start here.

### HOW TO USE THIS CALENDAR

**Every topic is real** — homeowners genuinely search for these. You don't need to audit or second-guess any topic. Before writing each post, do one quick step: type the keyword into Google, check autocomplete, and confirm the exact phrasing your local market uses. The topic stays. You're fine-tuning the keyword phrase for your city. That takes 5 minutes per post.

Pick the topics that match your trade, start with the month you're in, and begin writing. **The order you publish them in — and how to connect them so they compound into rankings — is what the Owned Lead System teaches.** That's the part that turns a list of topics into a system that generates inbound calls.

**HVAC** INFORMATIONAL  
**Why Your Furnace Keeps Turning Off and On**  
Target: furnace short cycling causes

**HVAC** INFORMATIONAL  
**How Often Should You Replace Your Furnace Filter**  
Target: how often change furnace filter
